

Accounting for an organisation's triple bottom line, carbon and ecological footprint *September/October 2008*

Two day learning program

that will provide you with rigorous, quantitative tools to account for an organisation's carbon or ecological footprint and TBL

Who should attend: consultants, accountants, auditors and sustainability managers working with or in local government, business, industry, government and non-government organisations that want to understand what being *carbon neutral* will mean for them. Anyone who rejects greenwash and requires a full upstream TBL report that reveals all and shows where the risks and opportunities are hidden. Anyone who wants to understand the detail hidden in their ecological or carbon footprint and what it means for action.

What do we cover: What do we cover: Day 1: what's "carbon neutral" and how do we know what's to be neutralised; what's a carbon/ecological footprint and how does it fit into the TBL; input-output analysis; sharing responsibility along the supply chain; TBL case studies using the BL³ software. Between workshop activity: data collection. Day 2: Hands-on the BL³ software - data input, software functionality; what the output means; writing a report using the output.

What do you get: *Walk away with a working model of a TBL or Carbon or Ecological Footprint project on your own computer* - development of a TBL or Footprint project; use of the full BL³ software for one project for one month, downloaded onto your laptop; unlimited trial version of software; resources & support materials.

Note: the course provides **one month** free access to the software. For continued use after this time the software must be purchased.

What does the learning program cost: \$1,430 for one person or \$1,980 for two (inc GST)

Where: Melbourne's Western Suburbs

When: 19th September & 3rd October 2008 (Fridays)

Time: 9.30am – 4.30pm

Based on sound learning principles: learning over time; work-based learning; learning with a colleague

The University of Sydney

Integrated Sustainability Analysis TM

Course Registration Form: Two day TBL/Footprint Learning Program

Wyndhamvale, VIC: 19th Sept & 3rd October 2008

Course code: TBL/MELB2DY08/6

To book your place email: j.gonzalez@physics.usyd.edu.au
